Subject : Recommendation Letter

Dear Sir or Madam,

I have worked with Maximilien from June 2023 to December 2023. I am writing this letter to strongly recommend Maximilien's candidacy.

He completed an internship within our Multi-Asset team, at our Paris office. During the entire period, he has worked under my responsibility. Maximilien has quickly adapted to our working methods and tools (Bloomberg). He took part to the execution of our daily routine, performed financial analysis, automated processes and was involved in a long-term portfolio construction project. Within this framework, he has shown intellectual maturity and understood issues, allowing him to give his point of view in a clear manner and ultimately propose solutions.

His sense of responsibility and his enthusiasm allowed him to quickly integrate our team and working environment. It was truly enjoyable to have him in our office. I am deeply convinced that Maximilien will be a strong asset and add value to your company.

I am at your full disposal should you require any further information

Yours faithfully,

Louis-Marie Toupet
